

FOR IMMEDIATE RELEASE

**NEW 250 WATT MEDICAL POWER SUPPLY
IN A LOW PROFILE 3" X 5" PACKAGE**

August 18, 2011 - Hudson, MA – The new PPWAM250 Series' of AC/DC power supplies from Power Partners offer 250 watts of performance packed design and are compliant to UL/cUL60601-1 and TUV 60601-1 medical safety standards. Units are also bear the CE Mark and are RoHS compliant. This low profile 250W Series is ideal for a variety of patient vicinity medical and dental applications.

The PPWAM250 Series' accept a 90-264VAC universal input. Single output models have regulated voltages ranging from 12VDC to 48VDC with no minimum load. The compact, 3" x 5" x 1.38" footprint (open frame model) makes the PPWAM250 Series' an ideal choice for designs with space constraints. Units provide up to 250W of power with 17CFM of forced air.

The Series boasts high efficiencies greater than 85%, leakage currents as low as 300 μ A at 264VAC. Comprehensive protection circuitry, including overvoltage and short circuit protection, is inherent in the design. EMC Performance meets FCC and EN55011 Level B standards and units have an MTBF of 100,000 hours at full load.

Units are economically priced, with the PPWAM250 Series starting at \$87.00 in OEM quantity, with delivery from stock to 14 weeks ARO. Full specifications are available online at <http://www.powerpartners-inc.com> or please contact our Technical Group at tech@powerpartners-inc.com For price and delivery questions, please contact us at sales@powerpartners-inc.com or via telephone at 978-567-9600
