

FOR IMMEDIATE RELEASE

Low Cost and Super Compact 60W Desktop Power from Power Partners

December 20, 2011, - Hudson, MA – The PSAD60 Series of AC/DC desktop switching power supplies from Power Partners provide up to 60 Watts of continuous output power. They are enclosed in a super compact case with either C14 or C8 input receptacles. All models meet EN55022 and FCC Class B emissions limits, and are approved to UL, CSA, and European safety standards. Units are approved as Limited Power Source (LPS), are RoHS compliant, and bear the CE Mark.

The PSAD60 Series meet Efficiency Level V, with efficiency ratings up to 89%. They meet the stringent requirements of global energy efficiency standards such as EISA2007, CEC and the European ErP Directive for minimum average efficiency of 87% and no-load power consumption of less than 0.5W.

The PSAD60 Series' operate with a universal AC input of 85-264VAC (47-63Hz) and offer output voltages ranging from 5VDC to 24VDC. This compact desktop adapter has a 2.01" x 4.72" x 1.34" footprint.

This Series features 3000VAC input-output isolation. Comprehensive protection circuitry, including overvoltage and short circuit protection, is inherent in the design. These highly efficient supplies have an MTBF of >100,000 hours at full load.

Power Partners' PSAD60 desktop supplies are well suited for wide variety of applications, such as test and measurement, communications, and peripherals. Modifications to standard designs (output voltages/output connectors) are welcomed. Units are economically priced at <\$15.00 in OEM quantity, with delivery from stock to 8 weeks ARO. Full specifications are available on-line at www.powerpartners-inc.com or contact our Sales/Technical Group at sales@powerpartners.com or at 978-567-9600
